Supervised by Teguh Kasprabowo, S.Pd, M.Pd Faculty of Language and Cultural Studies STIKUBANK University.

Keyword: Moral Value, Movie, Literature

The objectives of the research entitled "An Analysis on Moral Values In Wonder Movie" were: (1) To examine the moral values in the film "Wonder." (2) To expose the influence of character on their relationship in the film. In this study, the author used a concise qualitative approach. Wonder Movie's film was the instrument of this research. The film's plot is about August Pullman (Jacob Tremblay) who was born with facial abnormalities. Going to public schools needs to be avoided. Yet her parents admitted Auggie at a private school in Beecher Prep while still in elementary school in grade 5. Auggie had to show the same as other kids, but the other kids didn't like it. The film's moral values are duty, integrity, love and affection, joy, good-heartedness, kindness, love of life, knowledge, sincerity and faith in oneself. Hopefully it can build the good character for us as a future teacher from the analysis of moral values and finally we can give the students an inspiration..
