To all the WSEAS Authors

After September 7, 2024, our authors have to provide WSEAS with their debit / credit card details for a *block (not a charge)* of 50 euros before the peer review begins. No money will be charged before the acceptance of your paper. If they do not have debit / credit card or for some reason they hesitate to give it, they must deposit a minimum amount of 50 euros by bank deposit to our account. In case of acceptance of their paper this amount of 50 EUR will be deducted from the publication fees. In case of rejection, we will return this amount to the authors.

This is necessary so that our Editors-in-Chief, our Associate Editors and our Reviewers will focus only on the articles for which authors actually agree to pay the registration fees.

It is the policy that will allow us to minimize the cases of authors who refuse to pay the fees after the tedious, long and difficult task of peer review or even authors who take comments from our reviewers just because they intend to improve their paper and submitted to another Publisher later elsewhere or even authors that send fake papers or papers with plagiarism or self-plagiarism

If you have an article now under review and you want to start the Peer Review of your Pending paper, contact us

Dear Authors

The paper(s) you submitted to WSEAS Journals are still pending:

In the attached file **Pending.txt**

you will see the List of the Pending Papers

that have been submitted to WSEAS and are without approval or rejection until now

You can find your paper(s) in this list. Your paper(s) is(are) still under review.

Unfortunately, the Editors sent your papers to the reviewers for these papers, but the reviewers have not answered yet.

It is summer time and many professors are still on summer vacations.

We have to find new reviewers again for your paper. This is really a difficult and tedious task.

Too Many articles, too different disciplines, too different specialties.

For each article we need to check for plagiarism, whether the article has text from AI software, the validity of the authors' affiliation, the validity of the citations, the English language, the figures, tables, equations, etc. etc.

Because, unfortunately, several authors do not pay the publication fees when their article is accepted, and while, unfortunately, the Reviewers, the Editor-in-Chief, and Editors have spent several hours reading and editing your article, the WSEAS Administration has decided, as of September 7, 2024, to take as guarantee the details of the Authors' Card

For each article, one card of one of the authors is sufficient.

This card will not be charged with the amount of fees under any circumstances before approval.

It will, however, be charged afterwards.

If you agree to pay the fees as they are here <https://wseas.com/fees.php>, please write your card details here and send it to us

by email (Support@wseas.org and wseas.headquarters@gmail.com) or Viber (00306986526484) or Whatsapp (00306986526484)

PAPER TITLE:

Your Card will not be charged before the acceptance of your paper. If after the acceptance of your paper, you want to

Dear Professor Sudiyatno

The fees are here www.wseas.com/fees.php and you know them before sending your paper. They were the same in the last 8 years. Since 2016.

We are really sorry, but only you among so many authors gave this strange interpretation.

We have clarified, several times, with many different emails that this amount was a small Symbolic prepayment for the Procedure to start.
It was not the Registration.

Really, only you among so many authors have understood quite erroneously that this small amount were the fees.

Unfortunately we do not return this prepayment for papers that have received Acceptance.

The title should clearly reflect the research question or subject matter.

It's essential to ensure that it is neither too broad nor too vague.

If possible, include keywords that reflect the main themes or methodology of the study.

I believe that a good abstract should summarize the main goals, methods, results, and conclusions of the paper.

Ensure that the abstract is concise and directly addresses the problem the paper aims to solve, the methods used, and a brief conclusion.

Abstracts should not introduce new information but instead summarize the paper effectively.

The authors must ensure that the title is more focused if it seems too broad.

The authors must revise their abstract to clearly state the methodology and significant findings if they are missing.

The introduction should clearly introduce the research problem and provide a logical flow leading up to the research question.

It should briefly touch upon the background, the gap in current research, and why this study is important.

The introduction must highlight key references to place the research in the context of previous studies.

Additionally, the aim and significance of the study should be crystal clear.

Incorporate more recent references if the literature is dated.

Critically analyze previous research instead of merely summarizing it, ensuring that gaps in the literature are clearly pointed out.

Please, explain the Figure 1 (Village financial management cycle) with more details

The conclusion should summarize the main findings, their significance, and possible implications for the field. It should not introduce new data but

instead provide closure by addressing the research question.
If applicable, offer recommendations
for future research.

It is obligatory for the authors to

Ensure that their conclusion is concise and to the point.

If relevant, suggest directions for future research, highlighting any remaining gaps that need to be addressed.

The paper can be accepted in the WSEAS Journal on Business and Economics but the authors must work very very hard in their revised version.

Where is their Statistics with Chi-Square and t-test?

We have told that we must not publish any paper without serious statistics

We need more explanations and more examples about the

4.11.1. "Supervision of village funds at the village level"

Also, the description here 4.11.3. "Supervision of village funds at the regency level"

is inadequate and obsolete. Please, extend it and add new methodology and new results.

The author must make the necessary corrections in the English Language.

The author must correct all their grammatical errors

So, this article cannot be published in the present form now.

The reason is that the article has some grammatical errors

In order to improve his paper, the authors may copy-paste his text inside the GMAIL.

Because some authors cannot understand what they have to do,

* This is an interesting paper for the audience of this journal

The authors must dedicate more space to convince us that this paper is related to Business and Economics otherwise, do not publish it

Note that the authors have to Pay high attention to the references. Every reference inside the text must be reported in the list of the references, and every reference in the list of the references must be connected inside the main text properly.

As we know the general policy of the IEEE Conferences in the references is the authors of the paper to dedicate maximum 10% of their citations

to their previous publications with a maximum number 5

Also the references must have diversity to authors, journals and countries

Dear
Maria Georgieva

Thank you for responding by replying to our questions regarding our paper with:

ID: 5107-2990

Title: Village Fund Governance Model: Empirical Study of Village Fund Management in Kudus Regency, Central Java, Indonesia to be revised according to the recommendations and directions of the 3 reviewers.

We are ready to make revisions according to the recommendations and directions of the 3 reviewers, with a revision deadline of October 25, 2024.

Our next question is about our paper entitled: "The Role of Social Support on Graduates' Readiness for the Workplace: An Empirical Study in Indonesia.Regency, Central Java, Indonesia", which we have also revised according to the recommendations and directions of the 3 previous reviewers.

Is it also accepted for publication in this journal (WSEAS Transaction on Business and Economics), if accepted and published in this journal, we ask that you send the LOA as a basis for the APC payment of 930 Euros, we are very grateful and willing to pay for it.

Thank you for your cooperation.

Best regards,
Bambang Sudiyatno

Dear Dr. Bambang Sudiyatno,

Thank you for your email.
Let's clarify a few things.
You cannot have the same paper ID with 2 different paper titles.

As I have informed you before, you have uploaded the paper ID: 5107-2990 in the form with the title: Village Fund Governance Model: Empirical Study of Village Fund Management in Kudus Regency, Central Java, Indonesia but in the file you had another paper title " The Role of Social Support on Graduates' Readiness for the Workplace: An Empirical Study in Indonesia".

We have resolved this issue since you sent us the correct file that corresponds to the paper ID: 5107-2990 and you have received the turnitin report and comments from the reviewers.

We do not have the paper entitled: **The Role of Social Support on Graduates' Readiness for the Workplace: An Empirical Study in Indonesia.Regency, Central Java, Indonesia** in our database with a **paper ID**.

You have to submit it and it will be evaluated again.

Best Regards

Maria Georgieva
